

Esaxeron

Esaxerenone INN

COMPOSITION

Esaxeron 1.25 Tablet: Each tablet contains Esaxerenone INN 1.25 mg.

Esaxeron 2.5 Tablet: Each tablet contains Esaxerenone INN 2.5 mg.

Esaxeron 5 Tablet: Each tablet contains Esaxerenone INN 5 mg.

PHARMACOLOGY

It is a nonsteroidal mineralocorticoid receptor antagonist. It exerts a selective binding of mineralocorticoid receptor and inhibits activation of mineralocorticoid receptor by aldosterone in order to control blood pressure.

INDICATION

It is used to treat hypertension.

DOSAGE AND ADMINISTRATION

The usual adult dosage is 2.5 mg, orally once daily. The dose may be increased to 5 mg in patients whose blood pressure is not adequately controlled. Based on renal function, 1.25 mg daily starting may be used.

CONTRAINDICATION

It is contraindicated in the following cases:

- In patients with known hypersensitivity to esaxerenone or any of its excipients.
- In patients with severe hepatic disorder, Child-Pugh grade B or C cirrhosis or biliary obstruction.
- In patients with cholelithiasis.

WARNING & PRECAUTION

- Since hyperkalemia may occur; blood test should be performed regularly. Keep blood test schedules under the instruction of your doctor.
- With your blood pressure dropping, patient may feel dizzy/lightheaded. Pay attention when work at heights or operate dangerous machinery such as driving a car while take this medicine.
- Avoid taking any food containing St. John's wort, since it may diminish medicinal effects.

SIDE EFFECT

The most commonly reported side effect includes anemia, dizziness and headache.

USE IN PREGNANCY & LACTATION

The safety of this medicine has not been established for use during pregnancy. The use of this medicine should be avoided in breast-feeding women.

USE IN CHILDREN
